## Game Plan Part 4 : Transitions

When having to defend in a low block, can we use the ball effectively in the turnover and affect them by turning them round with balls in behind the defensive line?

Low Block

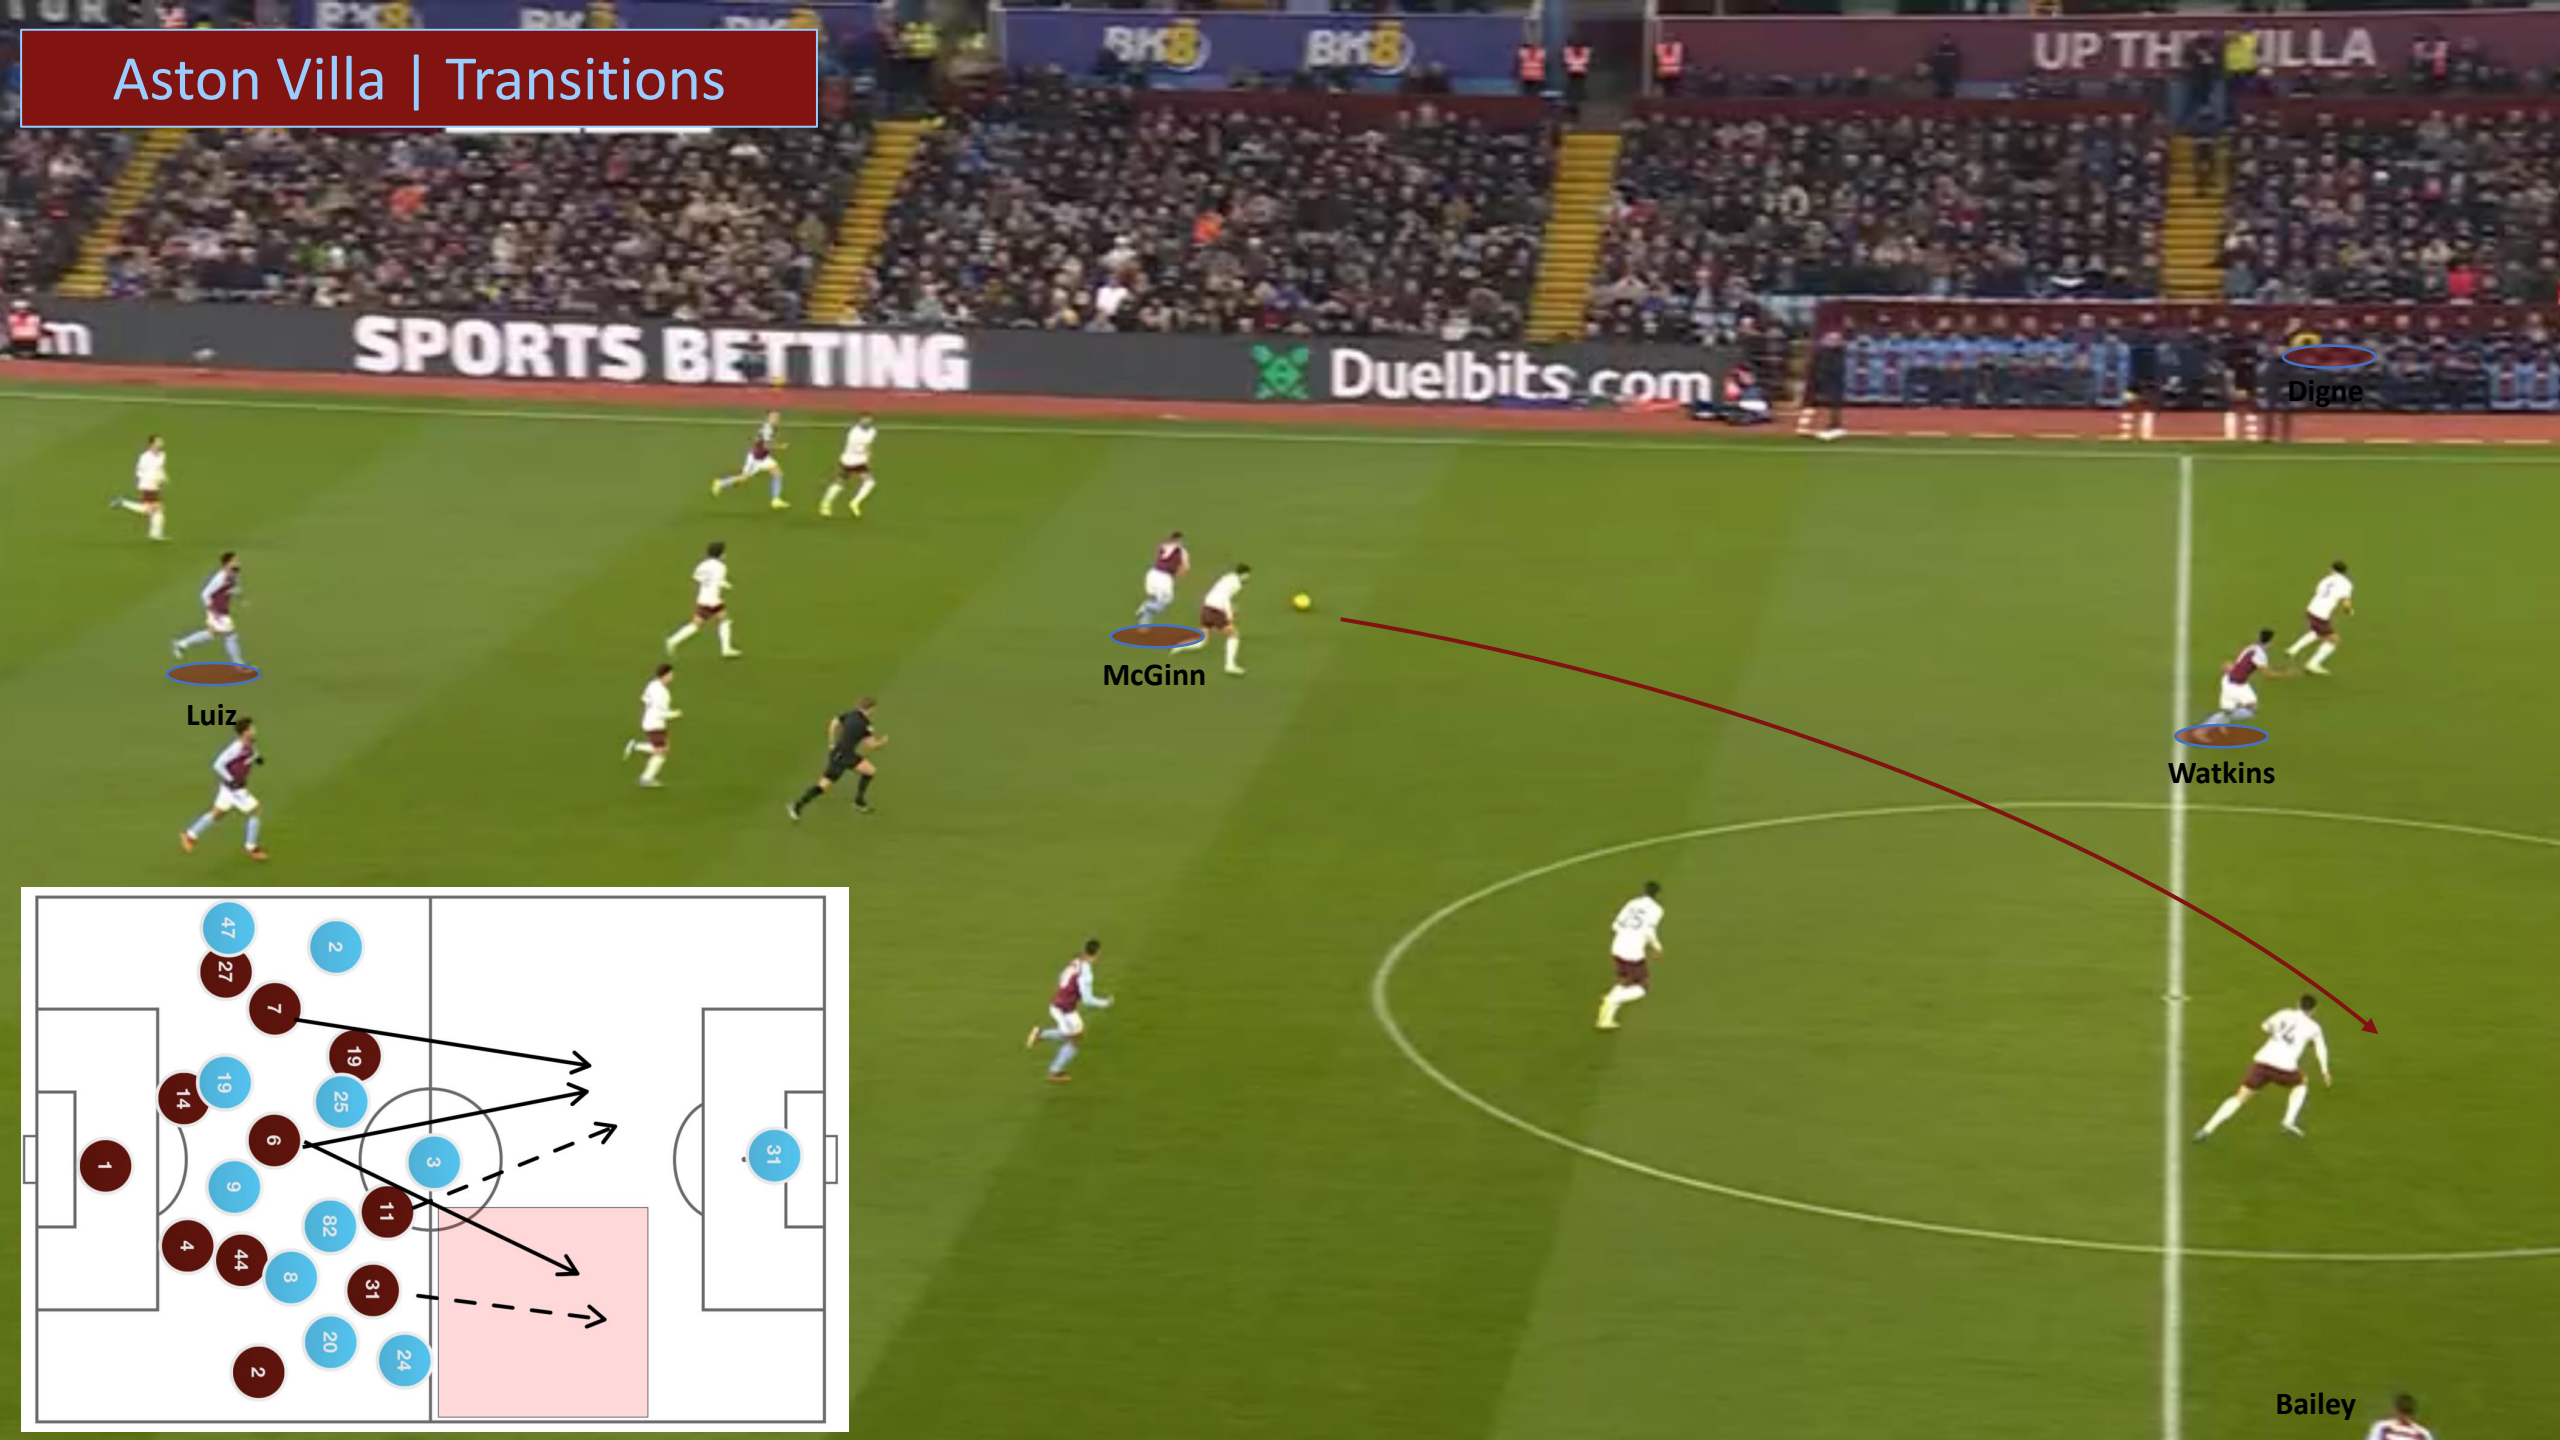

**Defending the left side,  
scenario example:**

**JM to hold a position in  
the left half space, ball  
turned over, regain  
possession and shield.  
JM or DL to use one of  
two runners of MD, OW  
and/or LB. Pass should  
go across field, if  
possible, for maximum  
run-in potential.**
